- inner core

## Welcome

Dear customers (and potential customers),

Our cases are more than just a storage place. They are a home that is not only high-quality, sturdy and durable, but also fits your products perfectly thanks to individual customisation. Your tools, presentation materials, goods or sensitive instruments will be well protected and securely packed!

With this catalogue, we would like to give you an insight of our versatile case and packaging world. Get inspired and discover the endless possibilities. Do you have questions, or do you already have an ideal case in mind? Do not hesitate to contact us. You won't have to figure it out on your own; together, we will develop the optimal packaging solution.

You can trust the quality of cases and packaging solutions from Hofbauer.

Thank you for your interest,

Your hofbauer team

# Packaging solutions for more than 115 Years

The Gregor Hofbauer GmbH was founded by Gregor Hofbauer starting with boxes made of wood, leather and metal.

Hofbauer conceives packaging solutions to protect and transport worldwide known typewriters and camera brands.

Purchasing of extrusion blow-moulding machine – double-walled cases can be manufactured. Emergence of the „Airbag“. Also the Citybag is invented during that period.

Publication of a new blow-moulded allrounder – the Megabag. Individual inner cores can be created due to customer requests.

Further investments into the machinery are made. The biggest extrusion blow-moulding machine with 130t is purchased.

today

Hofbauer creates packaging solutions for the automotive industry – the case production begins.

First-time production of plastic cases through injection-moulding.

The Minibag, a new injection-moulded case, conquers the market. It comes in 4 different sizes.

Hofbauer releases the most variational product – the Maxibag. It comes in 26 different sizes.

Hofbauer does not only perform as a case supplier, but also as a specialist for full packaging solutions.

# 3 Steps to your packaging solutions

## 1 YOUR PRODUCTS

You provide us information about your product, such as size, form, weight or a technical drawing. Or you can send us your product you would like to pack into one of our cases.

## 2 OUR SERVICE - We create a packaging concept

**THE APPROPRIATE CASE**  
Choice of cases by size, design and technical features

**THE INTERIOR DESIGN**  
According to your request and our experience we create proposals to arrange, present and pack your products

**THE EXTERIOR DESIGN**  
Give your case its own individual identity by screen print, digital print, stickers or reliefs

## 3 YOUR PACKAGING SOLUTION

Your individual ideal case

# Interior design

We provide several options for your individual interior design

	 <b>foam inserts</b>		
	 <b>deep drawn inserts</b>		
	 <b>customised extensions</b>		
	 <b>textile pockets</b>		
	 <b>inner wall customisation</b>		

# Exterior Design

There are various possibilities for your individual case design

## Minibag

THE SMALL CHOICE WITH LARGE OPTIONS

- PP
- Film
- Stift
- CMYK
- Folie
- ESD

- Four sizes in three standard colours
- Packaging and transport solution for small goods and products
- Deep base for more volume and optimum space utilisation
- Integrated handle
- Minibag 1 to 3 with living hinge Minibag 4 with pin hinge
- Low empty weight
- Optional print

	Minibag 1	Minibag 2	Minibag 3	Minibag 4
External in mm - L x W x H	230 x 187 x 45	265 x 225 x 50	327 x 275 x 55	345 x 284 x 83
Internal in mm - L x W x H (bottom + lid)	222 x 145 x 40 (30 + 10)	258 x 178 x 45 (33 + 12)	319 x 225 x 49 (36 + 13)	338 x 229 x 79 (55 + 24)

Thanks to its low empty weight and its Ext. dim., Minibag 1 is suitable for mail distribution.

### Accessories/ Special Equipment

- Multicoloured silk screen or digital print optional
- High-quality stickers
- Dividing plates available for Minibag 4 (transparent or coloured)
- Custom foam inserts
- Standard foam set available
- Conductive version available for special applications
- Thermoformed inserts

# Explorer

CASE SERIES FOR EXTREME SECURITY

Key p. 2

- 30 sizes in two standard colours
- Extremely robust, shock-proof and watertight packaging and transport solution
- High choice of accessories

Stackable with profiled stacking aids that protect against slipping.

## Robust & recyclable

The Explorer case is manufactured from extra-strong, durable, recyclable polypropylene.

## Resistant to harsh temperatures

Heat and cold will not harm the Explorer. It can be used in a wide temperature range from -30 °C to +90 °C.

## Watertight

Due to the neoprene seal, the Explorer is watertight with an IP67 rating (up to 10 m depth) and dustproof.

## Corrosion-resistant

All metal parts in the Explorer are corrosion-resistant.

## Suitable for air travel

The Explorer is hermetically sealed; an automatic valve provides pressure equalization

## Suitable for use by the army

Explorer cases meet NATO specifications and most packaging standards.

## Pressure-resistant

The Explorer is pressure-resistant both when standing up and when lying down.

## Stackable

with profiled stacking aids that protect against slipping.

## Shock-proof

The construction and material thickness makes Explorer shockproof – even high sensitivity equipment is perfectly protected.

## Special colours

Army green and other special colours available upon request.

## Resistant to acid

The Explorer's material, hinges and handle are resistant to acid.

## Lockable

Securely lockable with a combination lock or with a padlock

# Explorer

## Our case series for extreme security

Durability and extreme robustness – those are the main features of our EXPLORER case series, the packaging and transport solution for extreme applications, both on land and sea. **Trolley** – container with integrated pull-out handle and transport wheels

Container with transport wheels

All containers are optionally available with sturdy feet

Especially suited for use in:

- Transport and logistics
- Aerospace
- Military and supplies
- Engineering and electrical technology
- Medicine and measurement technology

Available in more than 400 standard sizes (among others in 19 inches!)

Case model for 19-inch racks

## Advantages:

- Depending on the version, the container can meet the highest civilian or military packaging norms (e.g. IP norms, ATA 300. Cat. 1 of the aviation industry – a container with 40 kg contents that has fallen from a height of 1m 280 times must still function properly afterwards –, meets requirements according to the American MIL-STD, MIL-PFF or ASTM)
- Easy handling
- Functional & stable
- Reusable
- Excellent resistance to impact, scratching and breakage
- High chemical resistance

Container with foam insert
