General Declaration of Conformity regarding PFAS and POPs

Dear Sir or Madam,

We hereby declare that, to the best of our knowledge and based on information provided by our suppliers, **no intentionally added**

- **per- and polyfluoroalkyl substances (PFAS) or**
- **persistent organic pollutants (POPs)**

are used or processed in our organization.

This statement specifically includes:

- No intentional use of substances classified as PFAS or POPs under the definitions of the **ECHA, US EPA,**
 - **Regulation (EC) No. 1907/2006 (REACH),**
 - **Regulation (EU) 2019/1021 on Persistent Organic Pollutants (POPs),**
 - **TSCA (USA),** or equivalent international frameworks.
- No use of substances listed in the annexes of the POPs Regulation (particularly Annex I and II) as prohibited or restricted (e.g. PFOA, PFOS, DecaBDE, HCB, SCCP, etc.).

This declaration is based on internal assessments, supplier statements and currently available information. As full chemical analysis of all materials is not feasible in every case, the unintentional presence of trace-level impurities cannot be completely excluded.

We continuously monitor developments in PFAS and POP-related regulations and will adapt our practices accordingly.

This statement is provided voluntarily and is not legally binding. It reflects our knowledge and belief at the time of issue.

Kind regards,

B&W PolyEngineering Türkheim GmbH

Benedikt Buck
(Managing Director)
